

Two Screenshots to PDF

View

```
import pyautogui
from PIL import Image
import time
```

```
ss1 = pyautogui.screenshot()
ss1.save("ss1.png")
print("ss1 saved ")
```

```
time.sleep(2)
```

```
ss2 = pyautogui.screenshot()
ss2.save("ss2.png")
print("ss2 saved ")
```

```
ps1 = Image.open("ss1.png").convert("RGB")
ps2 = Image.open("ss2.png").convert("RGB")
```

```
ps1.save("p2.pdf", save_all=True, append_images=[ps2])
```

```
print("pdf saved")
```
